Marriage Mentor Program

About iRelateNow

Our Mission

Our overall mission is to provide practical solutions to individuals and couples that will increase their Relational IQ.

Our Passion

iRN was born out of a desire to see relationships, on all levels, flourish. There is such a great emphasis placed on academic and professional success, but many are struggling with having successful relationships. We want to go beyond increasing the intellectual; we want to enlarge Relational IQs.

Our Goals

Founders, Robert and Angela Johnson desire to see a greater emphasis placed on relationship development globally. They understand relationship choices are important to one's continuous development. These choices can hinder or help us. They can be fruitful or fatal. We want to provide a safe space for intentional and strategic advisement. Through webinars, simulcasts, seminars, and group or individual counseling, we target tangible and intangible areas that impact the health of relationships.

What is Marriage Mentoring?

Marriage Mentoring is having a well versed and experienced couple come alongside a less experienced couple to help guide them into a healthy and successful marriage.

82% of couples report wanting to have a mentor couple walk with them. ¹

Do We Qualify?

If you are relatively happy in your marriage, share a desire to pour your experiences into another couple, laugh and learn from your mistakes, invest in growing your own marriage, and are committed to your spouse you qualify.

Cost & Benefits

Couples, you will participate in an 8 session program (approx. 25 minutes per session) where you'll learn strategies on advising couples in a fun and effective way.

Cost: \$65/per couple (max: 12 couples)
